

BOSCH
Invented for life

Sales support (m/w)

100 %

Bosch Packaging Technology SA is the recognized innovator and leader of flexible-automation with parallel axis robotics technology. Bosch Packaging Technology SA offers flexible-automation packaging solutions for the food industry.

To complete the sales team, we are looking for a Sales support employee.

Your mission : According to the requests of our customers, you take part in the development of technical solutions. You are more particularly responsible for the establishment of the offers, of the calculation of the prices and the realization of the layouts. Your mission includes also the risks analysis.

Your profile : Electro-mechanical Engineer or equivalent, you have an interest for technology and have very good knowledge

in IT (Office 2003, SAP). You are adaptable, autonomous and proactif. You have method, rigour, organization and communication skills. You control French, English and German. Spanish and an experiment in the packaging industry would be an asset.

Entry: 1st of August 2009
