INVENTED FOR LIFE IS THE FOUNDATION OF OUR BUSINESS.

Based in Waiblingen near Stuttgart, Germany, and employing 6,300 associates, the Bosch Packaging Technology division is one of the leading suppliers of process and packaging technology. At over 30 locations in more than 15 countries worldwide, a highly-qualified workforce develops and produces complete solutions for the pharmaceuticals, food, and confectionery industries. These solutions are complemented by a comprehensive after-sales service portfolio. A global service and sales network provides customers with local points of contact. In fiscal year 2017, sales totaled around 1.3 billion euros.

With our machines, pharmaceutical and food manufacturers produce, fill, package and inspect their products, which are in daily use by many people all over the world.

We develop processing and packaging solutions that are invented to enhance consumers’ and patients’ quality of life. With sustainable and future-proof solutions, it is our ambition to make an important contribution to people's nutrition and health.

This is why we provide innovative technologies and services that excite: easy, economical, reliable, connected and sustainable.

Leading in processing and packaging technology

Easy: Simple production and service support any time, anywhere
Economical: Reduced lifecycle costs and solutions for commercial success
Reliable: Safe production processes and stable machine availability
Connected: Production on a new level for improved quality, efficiency and productivity
Sustainable: Unfolding new potentials with sustainable packaging

PACKAGING SOLUTIONS

Food solutions
- Process technology
- Primary packaging for solid and liquid food
- Secondary packaging and product handling
- Systems competence
- Services

Pharma solutions
- Process technology
- Primary packaging
- Inspection technology and secondary packaging
- Pharma Line Competence
- Services

Industry 4.0 solutions
- Shopfloor Services
- User Guidance
- Augmented Reality Support (show cases)
- Condition Monitoring
- Remote and Data Services
- Regulatory Compliances

Sustainable solutions
- Safe product by suitable packaging, design for environment
- Machine and material efficiency, sustainable materials
- New pack styles
- Sealed paper packaging
- Eco Save Pack
Who wants to be one step ahead needs reliable partners. Bosch is continuously developing technological innovations and revolutionary packaging concepts together with a strong network of partners.

Customer focus is the key to market success. Bosch is continuously developing technological innovations with a focus on the needs of both producers and end consumers – leading to highly flexible and pioneering solutions.

Unfolding new potentials. Hence our goal is to contribute to a more sustainable processing and packaging industry. We do this by developing novel packaging solutions and more efficient processes together with partners and customers in a holistic approach. Sustainable packaging is a challenging and complex topic, which requires manifold expertise. This is why Bosch Packaging Technology works closely with a network of different partners and customers across the value chain.
